**MAP NOTES:**  
 This map was prepared by Kawerak Inc. in cooperation with the Alaska Department of Commerce, Community and Economic Development (Commerce) using funding from the Bureau of Indian Affairs, Alaska Native Tribal Health Consortium, Village of Shishmaref and funding from the Initiative for Accelerated Infrastructure Development (IAID). The IAID is supported by grants from the Denali Commission, USDA Rural Development, Alaska Department of Transportation and Public Facilities and Commerce. Preparation of this map was financed in part by the Mini-Grant Program with funds from the U.S. Forest Service. The Mini-Grant Program is administered by the Department of Commerce, Community and Economic Development Division of Community Advocacy. Kawerak Inc. contracted with Global Positioning Services, Inc. in June of 2004 to prepare the map.  
 This map should not be construed as a survey. On-site surveys should be conducted prior to engineering or construction.  
 This map was compiled to meet horizontal and vertical accuracy in accordance with national map accuracy standards.  
 Property and utility information has been generated from readily available sources with limited accuracy checks. Property information is not intended to represent a title search of the Recorder's Office record. Utility location is approximate and shows only the main lines as the service lines have been omitted for clarity. Generally, the information is current as of December 2004.  
 The Alaska Native Tribal Health Consortium, and Village Safe Water provided sanitation facility records.  
 This map is based on photography acquired on June 11, 2004 at a nominal scale of 1 in = 800 ft.  
 AeroMap U.S. prepared the orthophoto and topographic mapping. The orthophoto is an aerial photo which has been corrected by rectification to ground control stations, to remove distortions and warpage due to ground topography and aircraft tilt and trim.  
**HORIZONTAL AND VERTICAL CONTROL**  
 The control monument for the digital orthophoto was N.G.S. Point "Wales", Published horizontal datum NAD 1983 coordinates for this monument are North 65° 37' 20.13825" and West 168° 05' 38.34415". The vertical datum NGVD 1929 for this monument is 16 feet above mean high water (MHW).  
 The Village of Shishmaref has been adjusted to this control using high-precision GPS methods and the adjusted coordinates and elevation for DOT & PF Monument "86-00 1992", were calculated to establish a local control reference. The NAD 1983 coordinates for this point are North 66° 15' 17.81825" and West 168° 03' 45.73639" and the NAD-83 elevation is 4.086 feet above mean high water (MHW).  
 The contours were prepared at two (2) foot contour intervals with index contours every ten (10) feet.  
**FLOOD NOTES**  
 According to the U.S. Army Corps of Engineers, storm surge at Shishmaref has not been studied in depth. Highest storm surge elevations have been in the order of 8 feet MSL on the Chukchi Sea coast side and 6 feet MSL on the lagoon side of Sarichef Island. The City of Shishmaref Flood Insurance Rate Map (FIRM) published by FEMA effective date 8/23/2001 was based on the November 9-10, 1973 flood and will be updated in the future using this Shishmaref orthophoto and topography.
